

Technical Project Manager Vacancy - Zurich

PXL Vision AG is a Swiss ETH spin-off founded by former key employees of Dacuda AG (sold to Magic Leap). PXL's Daego® - digital alter ego - is a scalable software platform for digital identity verification.

We enable the creation of trusted digital identities, helping businesses to reduce fraud, minimize the cost of customer onboarding and increase sales conversion.

We have successfully launched our solutions in the Swiss market and are now expanding internationally. We are seeking a talented Technical Project Manager.

Your main tasks will include

- Coordinate with technical teams to ensure a timely delivery of R&D and customer projects
- Maintain a close client relationship and support them on technical matters
- Manage and track development of client requests
- Assist the sales team on technical sales topics, cost estimations
- Responsibility for technical product specifications and communicating client product updates
- Contribute to the overall roadmap planning

Must Haves

- Bachelor's degree in engineering, computer science or related field, or minimum 5 years experience in Software Engineering; preferably with experience in C++ and / or Java
- Proficient in German and English
- Must be a responsible team player, prepared to take ownership, be proactive and solution oriented
- To be self organized and be able to handle several tasks in parallel
- Demonstrated understanding of Project Management processes, strategies and methods
- Excellent time management and organizational skills
- Managerial experience applying analytical thinking and problem-solving skills
- Minimum 3 years management experience in the IT field as Technical Project Management, including development work and interactions with customers
- Excellent problem-solving skills
- Leadership and team management experience
- Knowledge of computer vision and machine learning is a plus

What We Offer

An appealing location in Zurich, close to the lake

A unique opportunity to help build a global product platform in a truly entrepreneurial environment

A challenging and rewarding job with an immediate impact on PXL's success

An inspiring, motivated, dynamic and interdisciplinary team

An international work environment with flat hierarchies and a goal-oriented culture

The opportunity to become part of an ambitious, lauded and fast growing technology start-up
